A message from the President of Business Operations

Dear Villans

Even from my short time here, I know very well that in English football, the clubs are deeply connected with their communities and with their fans. That's extremely important for me, for all the club and also for the owners – they're fully aware of that.

An open and transparent approach, for me, will be key, and I know very well what the fans represent to the club and what the club represents to them.

We'll do our best to develop the club and to build a strong and constructive relationship with the fans. I know, probably, we will not always agree on everything, but if we're able to be open, transparent and explain our decisions, that will be very useful to build a long-lasting relationship between us.

I'm looking forward to working together on our shared journey with the club.

UTV!

Francesco Calvo, President Business Operations
