Please note the following information on Food Allergies and Special Dietary Requirements.

Severe Food Allergies

Kirklees Catering Service's current statement is as follows: "Due to the production methods employed by the school meal service, there is a possibility that nut traces may be found in any menu item". The service, like many other caterers and food retailers, takes this stance because of the inability of suppliers and manufacturers to guarantee that their products do not contain nut traces.

Provision of Special Diets for Individual Children

Kirklees Catering Service's current statement is as follows: "Although it is service policy to provide a child with a special diet (e.g. gluten free, diabetic), such diets must be implemented only if requested formally via a hospital dietician".

If your child suffers from an allergy or requires a special diet, it is essential that you contact the Head Teacher who will advise you of the necessary steps for you to take before your child has a school meal. You will be required to bring appropriate information from a doctor/dietician.
