

SONG OF THE SEA

All is quiet and all is calm,
The whisp'ring water glistens,
Shining, shimmering, full of charm,
The tranquil ocean listens,
But now the water is not so good,
creatures mistake plastic bottles for food,
dolphins, whales, crabs and eels are
eating plastic for their meals!

Plastic bags like jellyfish
shouldn't be on a shark's shopping list,
The sea is for fish, dolphins and whales,
not rubbish and plastic, but corals and shells.

The monster raised his plastic claws,
Tumbling, cascading through the waves,
This plastic beast rumbles and roars,
Choking fish who can't be saved,
Our beautiful turquoise sea
once was the picture of tranquillity,
Bottles, bags and so much waste
are hiding the beauty of that place.

Plastic bags like jellyfish
shouldn't be on a shark's shopping list,
The sea is for fish, dolphins and whales,
not rubbish and plastic, but corals and shells.

Strange seaweed jungle,
Cities of colourful coral,
Oceans of wonder, streams of dreams,
Plastic pollution, we need a solution!

Plastic bags like jellyfish
shouldn't be on a shark's shopping list,
The sea is for fish, dolphins and whales,
not rubbish and plastic, but corals and shells.

Plastic bags like jellyfish
shouldn't be on a shark's shopping list,
The sea is for fish, dolphins and whales,
not rubbish and plastic, but corals and shells.

Save the ocean!

Recycle, reuse, or even refuse,
Stop this plastic pollution,
Only we can make a difference,
Only we can save the ocean

Recycle, reuse, or even refuse,
Stop this plastic pollution,
Only we can make a difference,
Only we can save the ocean

Save the ocean!
