

### 1.4.19

Dear parents

Our story of the week is 'Giraffes can't Dance' by Giles Andreae; we will be writing information texts about giraffes and creating dancing giraffes on the creative table. We will also be learning more about the endangered animals and how WWF helps to protect them. We will be creating posters to make people aware of these endangered animals and we will be using the computers to make a Pictogram to decide which animal we will sponsor.

Special Activities this week:

- On Monday afternoon we have the exotic zoo coming into class. They will be bringing in some of the smaller African animals for us to hold and learn more about.
- On Tuesday we have our **Dance-a-thon** (remember children can come into school dressed up as an African animal) and **bake sale** to raise money to adopt a WWF animal. In preparation for this, please can you bring in any of the cakes you made during the weekly homework for us to sell. We will also be decorating some cakes to make them look like lions and tigers.
- On Friday, please can you send in any **sponsor money** you have collected. It only has to be a small amount and can I say a huge thank you in advance for doing this.

In maths we will be learning to measure height using a variety of non-standard units. We are going to be investigating whether the youngest child is the smallest.

Thank you so much for all your support, we really appreciate it.

Mrs Sharp
