

### Medium Term Planning Summer 2019 Year 6 D&T – Plan a Picnic

<u>Week</u>	<u>Learning Intention</u>	<u>Outcome</u>
1	LI: To identify the health and safety risks of a picnic.	Tell the children that they are going to be planning a post SATs Picnic for the year group. What are some of the health and safety risks that could occur at a picnic? What can they do to minimise these risks?
2	LI: To evaluate menus designed for different occasions.	Look at a range of different menus designed for different occasions. What is effective about each one? What kind of foods would be best suited for a picnic? What constraints will we need to overcome to make our picnic successful?
3	LI: To design a picnic menu in groups.	In groups children will design a menu for the picnic. They need to think about what types of foods they could make at school and what would be easily shared with the year group. E.g. Foods that don't need heating, finger food etc.
4	LI: To prepare the food for the picnic.	Children split into groups and work together within the groups to make one type of food each which could be shared with the year group. Identify health and safety risks and ensure these are minimised.
5	LI: To share food at the year group picnic.	Children share the food they have made.
6	LI: To evaluate the picnic.	Children evaluate what went well and what they would do differently next time.
