

Eyes on every street

He shined your shoes the other day...

She begged for coins, you looked away....

Invisible, beneath your feet

We're the eyes..... on every street

You think we're dumb, we play along

We let the grown up get us wrong

You think we're cute, you think we're sweet

We're the eyes..... on every street

We roll our marbles, read our books

We keep a look-out for the crooks

Detectives know to be discreet

We're the eyes..... on every street

We're the eyes..... on every street

We're the eyes..... on every street (OFF!)
