

Remember How It Felt

When years have passed will we remember,
The times like now when songs were sung?
For time goes fast do you remember?
Remember how it felt when you were young?

When years go by we will remember.
The times like now when songs are sung...
Though time does fly we will remember
Remember how it feels to be young

The funny games we play
The silly jokes we say
The years we have been spending,
Of friendship never ending

Your times with friends, do you remember?
When games were played and people smiled
That never ends if you remember
Remember how it felt to be a child
