

Term 4

Week 6

Class 2 – Weekly Update

What have we been learning about?

In science we have explored the effect that coke has on our teeth, please ask your child what we found out! In English we have been practicing our comprehension and in maths we have been practising reasoning questions. We also watched a brilliant ukulele performance from Class 4 and made some Easter cards!

How could you help us with our learning at home?

Please continue to read with your children at home. This should include hearing them read aloud to build on their expressive reading skills as well as discussing what they have read to encourage comprehension.

Please see the curriculum link letter for more ways to support your child at home.

Dates coming up/Things to remember:

PE will be on a Monday and Wednesday. Please ensure your child has the correct kit with them for the new term.

Homework

I would like everyone to recap the spelling rules from this term and focus on words they find difficult. Please also practise some words from the high frequency word list I sent home previously.

For English, please write a recount about something exciting you do over the holidays. I look forward to reading them!

I hope you all have a lovely holiday! Thank you for working so hard this term, you are all brilliant.

Contact:

Don't forget that we are always available should you have any questions or concerns. You can contact us through the email below. Alternatively, you can send in a note via your child to pass on.
