

Dear Parent/Carer

**National Reading and Numeracy Testing 2019**

Please find overleaf the timetable for the National Reading and Numeracy Tests. These tests are designed by the Welsh Government as a way to measure progress from year to year. In July you will be sent a report to show how your child has performed against national averages and how much progress they have made from last year. Further information is available from the Welsh Government website [www.learning.gov.wales](http://www.learning.gov.wales).

Preparation for these tests has been an integral part of all pupils' Maths and English lessons during the course of the year.

Please could you ensure that your child is in school on the relevant test days, however, if there are any circumstances why this would not be possible, or if you have any queries or require further information, please contact the school.

Yours sincerely

Mr S Diehl  
Headteacher
