Evidence= Coach Josh, Teachers, TA's, Pupils, Parents, Reports, Assessments, Feedback, Planning, Photos, Registers, Display, Competition results, Use of resources/equipment, Invoices, Sports Premium.

Plans moving forward= This 1st year has been about building relationships at Long Toft, with the teachers & the children. As the profile and prevalence of PE, School sport & Physical Activity has increased at Long Toft during 2018/2019 increasing levels of participation, supporting staff, providing a wider variety of opportunities and instilling a competitive attitude during participation.

Moving forward Kixx & Long Toft will continue to provide as many opportunities as possible for all children. Kixx will provide CPD sessions for teachers to attend during out of school hours as well as continuing to enhance teachers when delivering PE, allowing the teachers to develop their own lessons & ideas, discuss and implement into lessons with the support of the coach. Also allowing pupils to take more of a lead during PE lessons and other areas of the day/week to promote physical activity and lead sport.

Kixx will support Long Toft in hosting, attending and arranging more inter-school tournaments and fixtures with all different year groups at the end of each half term. A in house sports competition will look to be implemented into the school next year with regular/weekly competitions happening throughout the whole school. Encouraging teachers and children to involve physical activity into other aspects of the Curriculum.

Finally, Kixx will look to develop and promote teacher, children and parent relationships through Physical activity and sport by providing activities, bootcamps and initiatives for them all to engage in. Celebrating the achievements of Pupils within school sport & out of school sport. Promoting Kixx academies during assemblies and looking to increase the number of Long Toft pupils attending Kixx or other extra curriculum sports clubs.
