

Maths

The **answer** is:

26

What is the question?

e.g.

What is 6 more than 20?

$22 + 4 =$

Think about all the different operations you could use.

+ **-**

÷ **×**

Science

Choose an animal. Find out what you can about it. Is it a mammal? An amphibian? Draw and label the different parts of your animal. You could make a poster, or find a creative way to present it.

Animal Magic

This term our topic will be '**Animal Magic**'.

Over the next few weeks please complete at **least 3** of the activities listed on the sheet.

If you complete a piece, hand it in on a Monday to be marked. All home learning needs to be in by **Wednesday 22nd May.**

English

Design a zoo!

What would you do if you were a zoo keeper? What animals would you keep? Write all about it.

When you are writing don't forget your finger spaces, capital letters and full stops!

Challenge - use some conjunctions in your writing e.g. and, but and so.

Geography

Choose a continent and find out what you can about it e.g. how many people live there? How many different languages are spoken? What food is eaten? Are there any famous landmarks?

DT

Make an animal or made up creature. Use your learning from science to label the different parts.

Practice those cutting and joining skills!
