---	---	--

This week:

Welcome back - we hope you all had a good holiday.

We have had a great start to the Summer term. On Wednesday we saw a fantastic display of Easter bonnets. In English all Explorers have began preparation for their narratives. They all worked very hard creating metaphors and using personification to make they narratives more interesting. In Maths we have practised rounding numbers to the nearest 10,100, 1000 and explored the skills in multiplication. In RE Year 4 compared Easter events described in four Gospels and Year 5 looked at all four parts of the Easter Vigil.

Next week:

We look forward to seeing everyone dressed as Vikings for our fantastic Viking day on Tuesday! In English the children will be planning their narratives. In Maths we will be working on rounding numbers the nearest 1000, 10000, 100,000.

Reminders:

Homework Books

New term, new beginnings. Please remember that homework books are due back every Wednesday.

Viking Experience Day

We asked in the last learning log to return permission slips and payment of £5.50 to enable children to participate in a Viking workshop on **Tuesday 30th April**. We have received most of the permission slips, thank you very much. However we are still waiting for quite a few.

Thank you for your continued support.

The Explorers Team
