

Wren Class Newsletter

April 2019

Welcome back to school for our summer term.

English

Our English this half term will revolve around the use of a book called *The Wolves in the Wall*, we will use this to write some descriptive pieces but also be looking at poetry, using this book as our stimulus. We will look at some descriptive and narrative based poetry as well as learning how to perform this in a dramatic style.

Maths

To start our maths this half term we will start to look at decimals by using what we have learnt in fractions, this will start by looking at tenths and hundredths in different contexts and different ways before moving on to look at using them in some calculations.

Science

We are going to carry on with our topic of electricity for this half term by focusing on creating circuits and making our own switches.

Swimming

Swimming will continue as before Easter for those children who need to keep on going, those who aren't going swimming will be with Mrs. Knight on Mondays until the rest of the class return.

Our additional PE slot will continue to be on Thursday afternoons with a coach from Active Tameside. This half term the children will be learning about cricket.

Homework

Homework and spellings have changed for this term. Spellings will no longer be ten words to learn per week, instead we have sent home with every child a list of words to learn from the statutory lists. These will be tested at random intervals throughout the term to see if the children have learnt them, once one set has been learnt the next set will be sent home.

Homework will now be handed out every Monday and will be handed in the following Monday.

To ensure that we have smooth transitions from the playground into class I will not be able to speak at length to anyone before school once the bell has gone, as such if there are any issues that need to be discussed please don't hesitate to make an appointment to see me either from 8:40 before school or immediately after school.

Regards,

Mr. Rowlands.
