---	---	--

This week:

We started our new Topic: The Land of Hope and Glory and discussed about physical and human characteristics of our Land of Hope and Glory. In English, we started to read the book "Flood" by Alvaro f. Villa and learned how we can write complex sentences using subordinating clauses. In Science, we investigated states of matter through amazing experiments and activities. In Maths, we practiced all four operations and examined fractions, mixed numbers, and shapes. In RE, we talked about some of the events after Jesus' resurrection and the impact that the presence of the Risen Christ had upon the Apostles.

Next week:

Next week, as geographers, we will focus on the geographical features of our Land of Hope and Glory. In English, we will learn how we can write interesting openings for our stories. In Maths, we will practice multiplications using different methods. In Science, we will continue to explore states of matter.

Reminders:

We have stuck new home-learning grid in the home learning books. We look forward to admiring the new projects of the children.

The children need to bring their Maths practice books and reading folders every day to school.

For this week the sessions that the children need to complete are:

First Mental Arithmetic 6 (Turquoise): Section 3, session 11(page 41).

First Mental Arithmetic 5 (Pink): Section 3, session 9(page 37).

First Mental Arithmetic 4 (Purple): Section 3, Check-upn 3(page 39).

First Mental Arithmetic 3 (Orange): Section 2, session 7 (page 30-31)

Mental Arithmetic- Introductory Book (Gold) Section 2, test 2 (page 19).

The Year 3 team
