

6th May 2019

Dear Parent/Carer,

Year 6 Class – Sex and Relationship Education

As part of the science curriculum and following the school’s policy for sex and relationships education, we have arranged a series of lessons on the above topic. We will be covering changes to the body during puberty, sexual reproduction in humans and how babies are born.

Children will have the opportunity to ask questions, either in class or more privately, and will watch a video. In the past, the children have found this session very useful and non-threatening. We aim to make the content age-appropriate.

The lessons won’t begin until after the half term holidays. We wanted to give you plenty of notice.

If you have any questions about these lessons or if you do not wish your child to take part, please contact the class teacher or Mrs Edwards.

If you would like further information regarding the nature of the topics covered, please contact me either through the office, email or by popping into school to see me – after school is better please.

Please complete the slip below to acknowledge receipt of this letter.

Many thanks for your continued support.

Yours sincerely,

Clare Tierney

Year 6 Class – Sex and Relationship Education

I **GIVE** permission for my child: to take part in the Sex and Relationship series of lessons.

I **DO NOT** give permission for my child: to take part in the Sex and Relationship series of lessons.
