

Temporary Full Time KS2 Class Teacher – 1st September 2019

Frizington is a community School serving a former mining village. We currently have 127 pupils on roll. We are a small friendly School who pride ourselves on our positive relationships with our children and their families.

The full-time class teacher post is initially in our lower Key Stage 2.

Following our “GOOD” OFSTED inspection (March 2017), we are looking for an excellent classroom practitioner to complement the current staff team. Expertise or interest in English would be advantageous but not essential. Please express your area of expertise in your letter of application. Work is broadly class based but there is a commitment to co-operative planning and a whole School approach to policy making and practice.

We are an experienced, dedicated and highly skilled team who work closely with the whole community. As a result of our work we can offer the successful candidate a fully supportive induction package.

We have no nursery class, but there is a maintained nursery school on site. We are a very active community School and share our premises with Frizington Library and we also have community rooms. Parents and community members are welcome in School to share our celebrations and work alongside children.

The School is committed to a wide enriched curriculum. A particular strength of the School has been its cross curricular approach that matches the needs of our children. We operate an extended programme of residential visits and out of school hours learning. It would be expected that the successful member of staff would attend staff meetings, whole School INSET and take part fully in School life.

We are seeking a flexible, talented primary practitioner who is committed to working as part of a small team. The successful candidate will be an enthusiastic and resourceful team member who is willing to show initiative and take on the extra commitment required in a small but thriving Community School.

Further information is available on our website.
