

Rivelin Sports!

April

Welcome!

This month this newsletter is all about what the Year 5 children have been doing.

Both classes had the opportunity to go to Ice Sheffield for a four week training programme. They went on a Wednesday and travelled by coach.

The first session the children had to go on the ice with their shoes on (not skates), this was uncomfortable. They also got to paint the ice!

For the second session the children were able to wear skates – this was much more comfortable. They also completed laps on the ice. Some children held on to the barriers and some children did let go! One of the children, Billy stated that it was amazing!

On the third session the children got to spin on the ice and got to play a game. The coach was called PJ and he did some good tricks.

On the final week the children got to dance and the best thing was that they got to do freestyle. The coaches got to show off their tricks it was great!

Both classes got to experience something they may have never got to do. Most of the children went from not being able to skate to being the best. It was amazing and it is something that all the children will always remember!
