---	--	---

This week:

We had a great week! We had the opportunity to try out different sports and activities on Training Tuesday. As geographers, we explored the four counties that comprise the United Kingdom and started to focus on their geographical features. In English, we learned how we can write interesting openings for our stories using subordinating conjunctions. In Maths, we practiced multiplications using different methods. In Science, we continued to explore states of matter and investigated the nature of gases through a variety of experiments.

Next week:

Next week, as geographers, we will focus on the main rivers of our Land of Hope and Glory. In English, we will learn how we can write complex sentences. In Maths, we will practice divisions using different methods. In Science, we will continue to explore states of matter and learn about evaporation and condensation.

Reminders:

We have stuck new home-learning grid in the home learning books. We look forward to admiring the new projects of the children.

The children need to bring their Maths practice books and reading folders every day to school.

For this week the sessions that the children need to complete are:

First Mental Arithmetic 6 (Turquoise): Section 3, session 12(page 42).

First Mental Arithmetic 5 (Pink): Section 3, session 10(page 38).

First Mental Arithmetic 4 (Purple): Section 3, Check-upn 3(page 40).

First Mental Arithmetic 3 (Orange): Section 2, session 8 (page 32-33)

Mental Arithmetic- Introductory Book (Gold) Section 2, test 3 (page 20).

The Year 3 team
