Dear Mrs Jamison

**Re: P6 Parents and the Transfer to Post-Primary Education**

As with previous years we wish to facilitate interested parents in obtaining relevant information about our school at this early moment in the Transfer Process. Given the on-going debate around academic selection and area based planning, it is perhaps more appropriate than ever for us to clarify our provision for now and the future. Our aim is to advise parents of the continuing sustainability, quality and value of the education we provide and our Admissions Criteria.

To achieve this end in a structured manner, I propose to hold an informal "Information Evening" in the school on **Thursday, 23<sup>rd</sup> May 2019 at 7.00 pm** to provide all interested parents and P6 children with an opportunity to visit and obtain information on a single occasion.

May I request your assistance in this regard by sending home with each P6 pupil the invitation provided, a copy of which is included for your own information.

***The evening will be informal and is not designed to be an earlier form of Transfer Evening, which will be arranged as always for parents and pupils in the P7 year.***

Thank you for your co-operation in this matter, as in other matters relating to the successful transfer of children from primary to post-primary education.

Yours sincerely

Mr J Bingham  
Principal
