

Ribbon of Poppies

UK & Commonwealth

About us

The Ribbon of Poppies project started in England in 2017 by a group called the Memorial Mob. The group are dedicated to creating memorials and events to help remember the "uniformed" services.

Around the same time the Ancre Somme Association launched a similar initiative that had the same aims and objectives and it made sense to work in partnership with the Memorial Mob.

The Ancre Somme Association is a registered charity who focus on education, Remembrance and supporting various veterans charities and Legacy Projects, around the UK.

Since the launch of the Ribbon of Poppies project in 2017 hundreds of Scout, Cub, Guide, Brownie and Cadet organisations have pledged support, as well as a number of schools and other community groups.

Soon after the launch it soon became apparent to all involved that this project was going to bigger than just the United Kingdom as pledges started coming in from all four corners of the globe.

This partnership helped ensure that the Ribbon of Poppies reached a wider audience and to date it has totally exceeded all expectations.

In 2018 members of the Ancre Somme Association felt that this project could be used to help educate future generations and they established the Ribbon of Poppies UK & Commonwealth.

This is now an annual project that will encourage the planting of poppy seeds, particularly by the younger generation, in memory of those members of the British Armed Forces killed in all wars and conflicts.

We Will Remember Them.
