

## School News from Copley Junior School

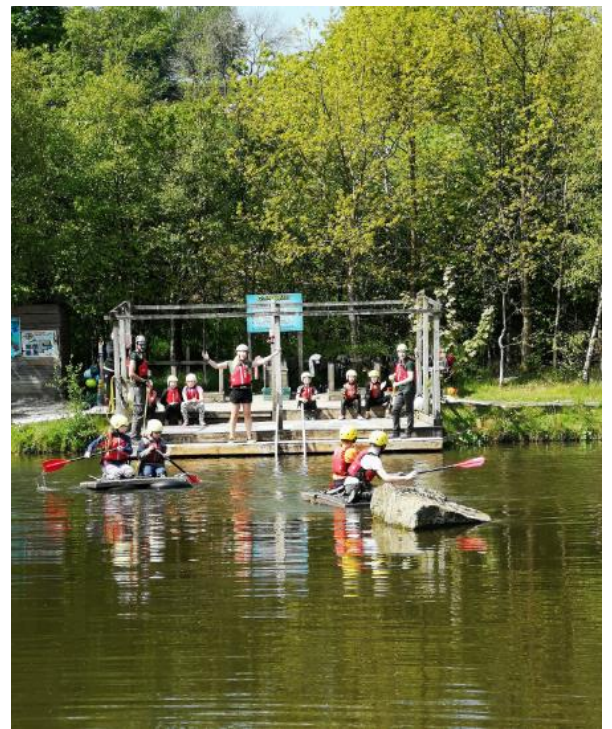

June 2019

### Year 5 Residential Visit to Robinwood

The Year 5 residential visit to Robinwood has been action packed and a great success. The children took part in such a varied range of activities, including canoeing, Knights' Challenge, the giant swing, the pirhana pool challenge, raft building, crate challenge, nightline, team building activities, archery, zip wire, caving and climbing. We have covered the entirety of the National Curriculum expectations for outdoor and adventurous activity and the visit has been superb for children's personal development. We have seen qualities of team work, independence, resilience, decision making and risk taking all flourish.

We are really proud of the children's superb behaviour during the visit and their support of each other. Well done to everyone in Year 5!

### **Well done to our Gymnastics Team**

Well done to our gymnastics team as they have competed in the British Schools Gymnastics Championships Finals, where they represented the Yorkshire region as Yorkshire Champions.

Our team performed their routine to a high standard and did very well to come 10<sup>th</sup> in the country! Very well done to our gymnastics team.

### **Intra-school Multi Skills Tournament**

Children across school have really engaged with our annual intra-school Multi Skills Competition. Children have been very busy practising their skills over a number of weeks, they have recorded their scores and have been very keen to improve their personal performances. Well done to everyone - we look forward to seeing which children improve their scores the most and which children become champions in the different skills.

We look forward to sharing more school news next month.
