What's Been Happening in Willow Room
Friday 24th May

Over the past week, the children in Willow Room have shown a keen interest in a variety of different topics and fascinations.

What’s going to work? Team work!...
This week, construction has been very popular with the children in Willow room, especially when it has been themed around vehicles. They had a lovely time; using the different resources (junk modelling, open-ended and blocks) to assemble a range of vehicles and have displayed their imaginative nature throughout.

In the allotment...
Over the next few weeks in Willow room, each key person will be taking their group down to the allotment area for the full week to explore and discover the possibilities that are available in the forest schools.
This week was Dawn and Emma family groups turn and they had a fabulous time, in the beautiful sunshine. For the week after half term, it will be... Danielle’s group!

We need your help!...
Unfortunately in Willow room, we are beginning to run out of spare clothing (specifically trousers for both girls and boys), so if you have borrowed any then please could you make sure you return them and if anyone has any donations of trousers, that would be brilliant too. Also please remember to bring sun cream and sunhats for your children with this lovely weather we are currently having!
Thank you 😊

Our outdoor environment...
We have now begun to open the gate during the session to the large outdoors, joining with the children in Hazel/ Blossom room. The children have had a fabulous time; collaborating with their older peers and noticing the new opportunities that have been available to them.
