

Maths

Choose two types of sandwich and make a Venn diagram to show which children like / don't like.

Also continue to go on Mathletics!
<http://uk.mathletics.com/signin/>

RE

Can you draw and write about someone who inspires you? Why do they inspire you? What do they inspire you to do?

History

Research and make a poster about a historical event or significant person between 1506 and 1728

Geography

1. Use a map / atlas to look for the locations of lighthouses around the U.K.
2. Find out about where rivers start and follow them to the coast.

Computing

Investigate why we don't have whales in our rivers or goldfish in the sea and report your findings in a poster about water habitats.

Splash out!

This term we will be reading 'The Lighthouse Keeper's Lunch' due to our **water** based topic. We will be researching creatures that live in water and food chains related to these creatures.

Over the next few weeks please complete at least 3 of the activities listed on this sheet or think of your own projects.

All home learning needs to be in by **Wednesday 10th July 2018.**

Science

Investigate and create a food chain for any animal you may find in the wild.

English

Retell the Lighthouse Keeper's Lunch story from the point of view of one of the seagulls or write a new story about Fred, Tom and Bert (the seagulls) and an adventure that they might have.

D.T / Art

Build a working lighthouse... What are the main elements of a lighthouse design and why is it built this way? What kind of things does a lighthouse need to withstand? What colours are used for lighthouses and why might these colours have been chosen?

Create your design and make a three-dimensional model using recycled materials, you could include the seascape which surrounds it.

How will you create the light?
