Junior Life Skills 2019

The children in Year 6 had a great afternoon last Thursday afternoon at the Junior Life Skills event which was held at Bullpoint. This activity is organised through Plymouth City Council and provides the opportunity for children in Y6 from across the city to work with a number of key agencies learning about important life skills and how to protect themselves as they move onto Secondary school. During the afternoon the children took part in workshops run by a range of different organisations, including: the Devon & Cornwall Police, Devon & Somerset Fire Service, Citybus, RNLI, Plymouth City Council, Peninsula Medical students, Great Western Rail and Western Power Distribution. As always the children were a great credit to the school and took part with real enthusiasm whilst learning many new things.

Heles School E-safety Festival

On Friday a group of 6 year 4 children had the opportunity to visit Heles School to take part in a E-safety festival. This event was organised and run through the school E-safety Council which is made up of students from year 10.

During the day, the groups worked alongside other children from a range of local Primary school to develop their understanding and awareness of current E-Safety themes. This included taking part in workshops which focused upon cyber bullying, digital footprints and how to protect yourself when online gaming. The children have learned lots of new information and have been equipped with strategies to keep themselves safe when online. I will now be working with them to discuss how they can share this information with the rest of the school through an assembly.

Plymouth Phoenix Girls FC are looking for new players to join their team. They will be running free taster sessions for girls in Years 1-4. These will be taking place on Thursday evening at 6pm on the field outside the Life Centre at Central Park.
