

Y2 Weekly Learning

w/c Monday 17th June 2019

Key Events/Messages

- ☺ We will be doing some fun junk-modelling next week so please send in any unwanted cereal packets, yoghurt pots, bottle tops, kitchen roll tubes etc. to help us with our creations.
- ☺ Please ensure children have their PE kit in school as soon as possible, with all items clearly labelled with their name. Children will definitely need this for Sports Day on **Wednesday 26th July**.
- ☺ **Tuesday, Wednesday and Thursday:** Writing and Waffles from 9.15am-10am. There are still slots available so please speak to the School Office if you are able to come.

English

This week, you are invited into school to watch a writing lesson in action. The focus of the lesson will be around you and your child's favourite book. At the start of the lesson, we will model how to write a quality sentence before sending you off to work with your child. There will be a bitesize waffle treat for you at the end of the session! ☺

As part of this writing and other writing activities that children will be completing throughout the week, we will be focussing on the following activities:

- ☺ Write simple, coherent sentences that make sense to the reader
- ☺ Ensure most sentences have a capital letter and full stops [or other punctuation mark]
- ☺ Use a range of conjunctions to add more detail to sentences; e.g. and/or/but/when/if/that/because
- ☺ Use past and present tense mostly correctly and consistently

Handwriting:

- ☺ Form lower-case letters of the correct size relative to one another
- ☺ Write capital letters and digits of the correct size, orientation and relationship to one another and to lower case letters
- ☺ Use spacing between words that reflects the size of the letters

Spelling:

- ☺ Segment spoken words into phonemes and represent these by graphemes, spelling many of these words correctly and making phonically-plausible attempts at others
- ☺ Spell many common exception words correctly
- ☺ Children will continue to be working in targeted groups on specific spellings.
- ☺ Spelling books will be handed out **every Monday**. Please ensure that it is handed in the following Monday so that class teachers can send out the new spellings to practice.

Maths

For the next couple of weeks, children will be working in targeted groups and on a variety of objectives to ensure they leave us as a confident and independent Mathematician. Please speak to your child's teacher if you would like more information about what your child will be learning.

Learn Its:

Encourage your child to explore the following calculation in lots of different ways [e.g. inverse, fact family, speed recall].

$$6 + 3 = 9$$

$$6 + 8 = 14$$

Learning these facts will help your child to become a fluent Mathematician and will provide them with the basic knowledge of calculations to use when solving more complex and challenging problems!
