

Examples:

$$\frac{3}{7} + \frac{5}{7} = \frac{3+5}{7} = \frac{8}{7} = 1\frac{1}{7}$$

$$1\frac{6}{12} + \frac{13}{12} = \frac{13+6}{12} = \frac{19}{12} = 1\frac{7}{12} + \underset{\uparrow}{1} = 2\frac{7}{12}$$
