

Mastering Fractions and Decimals ~ Years 4, 5 and 6 curriculum expectations

THIS IS AN ADAPTED AND ENHANCED COURSE * *see below*

Brief Overview:	<ul style="list-style-type: none"> To explore the big ideas of fractions and decimals To reflect on key representations and structures To identify common misconceptions and supportive strategies to address these To explore tasks that deepen understanding and challenge children to reason mathematically To consider the use of representations when solving problems 	
Facilitators: 	Name	School
	Rebecca Chandler, AHT & SLE specialising in mathematics	Parkgate Primary School
	Andrea Blundred, AHT & SLE specialising in mathematics	Parkgate Primary School
Who is it suitable for:	Primary / secondary teachers of the year 4,5, and 6 primary curriculum	
* Who is it NOT suitable for:	Staff who have previously attended the fraction and decimal training for yrs. 3 and 4 or yrs. 5 and 6	
What is the intended impact for you? What will you take away with you? e.g. resources, learning points etc.	<ul style="list-style-type: none"> To have enhanced subject knowledge, pedagogy and understanding of progression in line with age related expectations To have greater creativity in the teaching of fractions and decimals using a wide range of concrete and pictorial representations To have a bank of ideas to enhance the teaching of maths Practical ideas and resources incorporated throughout the sessions to take away and sent electronically, enabling you to incorporate ideas immediately into school practice or adapt as you wish.
