

## Home Learning Menu

Here is a list of suggested homework activities based on our topic of 'Space'. You can choose as many as you like to complete but you **MUST** choose at least one to bring to our Space Showcase on Friday 11 October. Most importantly have fun and use your imagination!!

Bake your own space themed cakes or biscuits, you might even want to include popping candy to make moon rocks!

Complete a character study of Tim Peake or any other famous astronaut or cosmonaut.

Design an alien (look to the natural world for features) and create an alien mask.

Make a 3D model rocket with a parachute to aid re-entry.

Write newspaper report about the first moon landing.

Use scrap paper, foil, sweet wrappers and other junk around the house to create your own space collage.

Make a space mobile that you could hang in the classroom.

Create a timeline showing the history of space travel

Make any part of the Solar System eg The Sun, Earth, planets out of paper mache.
