

## English:

We will be exploring the books: 'We're Going on a Bear Hunt' and 'On Sudden Hill'. Children will be going on real bear hunts and exploring the story behind these books. They will be learning lots of new sounds and beginning to learn how to blend them together. We will begin to form these letters accurately by practising their special rhymes.

## Maths:

We will be investigating numbers to 10 this term. The children will be ordering numbers, recognising them by number and by amount and even adding 1 more and 1 less.

They will also be exploring lots of shapes, discovering what makes the shapes different and what wonderful things they can create with them!

## Understanding the World:

This term, we will be asking the children to talk about their own lives, families and experiences to celebrate how different we all are and how we all have some things in common!

Term 1 Sept-Oct 2019

## St. Joseph's

Where will your imagination take you?

Welcome to the start of your Journey at St. Benedict's.

## Personal, Social and Emotional Development:

We want the children to settle really well into the class and our school, so we will be working on building friendships among their peers and looking after themselves and each other. They will be looking into what the bear is really like and how we can work through disagreements.

## Communication and Language:

The children will be having lots of fun discussions about what they are making and what they are reading. We are keen to hear all their wonderful ideas.

## Physical Development:

On our many adventures, we will be exploring different ways to move and spend time negotiating spaces and different terrain!

## RE:

We will be learning our daily prayer and the sign of the cross this term. The children will also be finding out about our School Mission and creating their own Class Missions as they think about what they would like to achieve throughout this year.

## Expressive Arts and Design:

A box is not just a box in St. Joseph's class...I can't wait to find out what they turn them into! There will also be lots of singing, dancing and role playing as we explore!
