

Maths

In maths we will be learning about place value and how the number system works. We will be looking at numbers past 100 and talking about their values. We will be using our knowledge of one more and one less to help us place numbers in order.

We will also be learning about addition and subtraction and applying what we have learnt within our block on place value.

Religious Education

This term we will be looking closely at nature and God. We will look at the creation story.

English

In English this term we are going to be writing recounts based upon our work on the following fiction books:

My Grandma is wonderful

My Grandad is wonderful

We will also be writing diaries and looking at examples of diaries.

Science

We will be looking at the human body, the life cycle and covering the parts and senses.

We will also be covering animals, learning about the different life cycles and how to categorise these.

Geography

Changes to the environment within living memory.

Look out for an invitation to our teddy bears picnic!

ICT

Internet safety and how to seek help around social media and computer games.

History

Our topic will be linked closely to exploring living memory. We will be talking about technology of the past and exploring toys of the past. We will be asking parents and older family memories to share their memories of the past.

PSHE

During our teddy bears picnic the children will be looking at how babies and toddlers develop and what they need. They will be showing sensitivity to others feelings when sharing their memories.

Art/Design and Technology

Painting and creating family and individual portraits.

Making picnic foods, celebration cards and memory boxes.

SPAG

We will be revising how to use full stops correctly and learning about possessive apostrophe. We will be writing in the past and present tense. The children will be introduced to co-ordination and subordination.

Year Two Memory Box
