Sporting Tournaments We need your help!

Dear Parents/Carers,

It's that time of year when we think about putting dates in diaries for sports tournaments.

We are really proud of the number of tournaments that children were able to attend last year. Tournaments are a fantastic opportunity for children to engage in competitive sports against local schools. Participation in competitive sports help to develop key skills such as confidence, communication and teamwork.

We are keen that the children are able to participate in as many tournaments as possible this year. However, in order to do this we need your support.

In order for as many children as possible to participate in tournaments, we would need the support of parent volunteers who have been DBS checked through the school office. Please contact us if:

- You are first aid trained and/or minibus trained
- You would be willing to attend first aid and/or minibus training organised and paid for by the school

Please note that parent volunteers would always be accompanied by a member of staff on these tournaments.

If you wish to be DBS cleared please come into the office and let us know.

We look forward to hearing from you and working together to give the best opportunities for all children.

Jess Thompson

(PE coordinator)
