

As historians we will...

- Research the history of Canvey Island.
- Use artefacts to help us learn about the past.
- Order events in chronological order.
- Create a news report about the 1953 Canvey Island flood.

As artists we will...

- Experiment with primary and secondary colours.
- Paint landscapes of our community in the style of the local artists Sheila Appleton.
- Explore the natural world around us through collage, frottage and sculpture.

As designers and makers we will...

- Learn about the people who help us in our community, the jobs they do and the vehicles they use.
- Design, create and evaluate our own emergency services vehicle.

As scientists we will...

- Explore, identify and name a range of everyday materials.
- Discuss the properties of everyday materials and group them accordingly.
- Identify and compare the suitability of everyday materials for different jobs based on their properties.

As readers and writers we will...

- Write a persuasive letter to the Evening Echo.
- Create an informative poster.
- Write a recount of a beach clear up.
- To produce a job advert.
- To read non fiction texts to enhance our understanding of why we should look after the world around us.

As geographers we will...

- Learn about our local community.
- Locate where we live on a range of maps.
- Learn about map symbols and use this knowledge to create our own map of the school.
- Compare and contrast Canvey Island to other Islands.

In PSHE we will...

- Learn about ourselves and our relationships.
- Learn about how we are growing and changing.

Autumn — Our Community

Our end outcome will be...

To take part in a beach clear up with the Friends of Concord Beach.

As mathematicians we will...

- Learn about place value.
- Understand the value of 100s, 10s and 1s.
- Read, write and compare digits.
- Partition numbers.
- Represent numbers in different ways.
- Learn our number bonds to 20.
- Add and subtract numbers.
- Write our own number sentences.
- Use mental methods to add and subtract
- To use diagrams to add and subtract
- To add and subtract using column method
- To add 3 numbers
