

GCSE Mathematics

General Information

Description

The course comprises of 22 units split over the 5 terms. A breakdown of each unit is detailed on 'Kerboodle' which pupils can access at home. 'Kerboodle' also enables pupils to view video clips on topics taught in class.

Entry details

Pupils will either follow a Foundation (1-5) or Higher (4-9) course.

Topic Breakdown

Year 10 Autumn

1. Calculation 1
2. Expressions
3. Angles and polygons
4. Handling data 1
5. Fractions, decimals and percentages

Year 10 Spring

6. Formulae and functions
7. Working in 2D
8. Probability
9. Measures and accuracy
10. Equations and inequalities

Year 10 Summer

11. Circles and constructions
12. Ratio and proportion
13. Factors, powers and roots
14. Graphs 1

Year 11 Autumn

15. Working in 3D
16. Handling data 2
17. Calculations 2
18. Graphs 2
19. Pythagoras and trigonometry

Year 11 Spring

20. Combined events
21. Sequences
22. Units and probability

Year 11 Summer
