E-safety

• Does your child have a phone?

• Do they have access to the internet? Have you checked parental settings?

• Are you aware of what apps and games they use?

• E-safety discussions in class every week.
There's a very good chance you've heard of Fortnite, but what exactly is it? And why is it so popular amongst young people? Fortnite is an online multiplayer "battle royale" game developed by Epic Games, and is playable on PlayStation 4, Xbox One, PC and mobile. It gained popularity in late 2017 and has since become the biggest game in the world, thanks to its rapid and engaging gameplay. As with most games, Fortnite itself is a highly enjoyable and safe experience, but it pays to be vigilant, as the safety is not water tight.

What parents need to know about FORTNITE BATTLE ROYALE

BATTLE ROYALE

Battle Royale games have become very popular in the last couple of years, and most stuck to follow a very similar setup. Taking Fortnite as an example, 100 player drop into a map, but there are no weapons and you must fight for weapons and armour and attempt to be the last person standing when you come up against the others. Once you have the chance to fight against each other to win, if you're in the last person standing you will have won.

IS FORTNITE ADDICTIVE?

Fortnite is at the forefront of gaming addiction discussions because it is so addictive with parents. But whether it actually contributes to gaming addiction is up for debate. The games' design is based around the idea of a player to be crossed out at the end, so you'll have no idea what to expect, and in the last 10 minutes of the game, you'll have no idea what to expect, and in the last 10 minutes of the game, the amount of time played and a proportion of spins with shots of red will be determined by the parents and these days to recognize these symptoms and come accordingly if they think they are developing.

FREE TO PLAY... OR IS IT?

While Fortnite is technically free to play, it is not free to play. It does come with a cost that spending money on the game, which has become a huge part of the game. You can buy V-Bucks in-game to play or buy them in real life with your platform account. To do this, an Epic Games account must be registered in the USA, as it is currently available on the US and the UK.

IS FORTNITE VIOLENT?

Fortnite has been rated by the ESRB as T (Teen), and it is not suitable for children under 13. Parents should check their child's age and ensure that they are not using the game.

Top Tips for Parents

BUYING V-BUCKS

As mentioned, Fortnite does contain in-game purchases. In the UK, you can buy them for £10, £20, £30, or £50. If you do not decide to use your own money and information afterwards as it is not too easy to do so. In letters to parents, Epic Games has said that any in-game purchases are not absolutely necessary, and that parents should be careful when buying.

GAMING WITH STRANGERS

Fortnite Battle Royale is an online game, and as such, there is a chance that you will end up in a game with strangers. It is difficult to predict what strangers will say or do, but it is a good idea for friends playing together to be grouped together. The only way to do this is to have an account of your own, and this is what we do in the game. With strangers, you will be able to join in on the fun and have a good time.

TALK TO OTHER PARENTS/CARERS

If you’re concerned about what your child is doing in the game, talk to them about it. If you are concerned about your child using the game, talk to them about it. It is important to know when your child is having fun and when they are not. It is very important to know when your child is having fun and when they are not. It is very important to know when your child is having fun and when they are not.

A game of Fortnite can last up to 20 minutes, so be flexible when it's time to put it away. The approach of ‘one more game’ as opposed to ‘10 more minutes’ will stop any complaints that a match is still ongoing. Better still, play with your child and take it in turns; that way you're helping control the time played and can keep an eye on what they're experiencing.
GAMING WITH STRANGERS

Fortnite Battle Royale is an online game, and as such, there is a chance that young children could come into contact with strangers who are randomly placed into their groups in a game. It’s difficult to predict what another person might say or do in a game, so it’s a good idea for friends playing together, to be grouped together. The only real countermeasure to interacting with strangers offered by Fortnite is to turn off all mic communications, which can be done in the game’s settings. Using outside chat apps, like Skype or Discord while playing, is a great way to make sure you know who you’re talking to and that nobody else is listening in.

What is it?

- A group of parents and staff that meet once a half term to arrange social and fundraising activities for the school. The committee consists of Chairperson, Secretary, Treasurer as the main officers but we also need other helpers to assist in the running of activities, shopping, photocopying etc.

- Last year HPSA raised over £10,000 by running discos, Christmas Fayre, Summer Fayre and other activities and we were able to help to buy the school minibus and outdoor classroom.
HPSA

• If you would be interested in joining or finding out more, please contact a member of the committee – the details can be found on the school website or HPSA facebook page.

• No experience is necessary

• Very little time commitment – do as much as you like
