

Parental Views on Swimming

July 2019

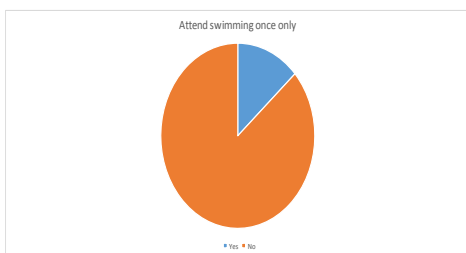

Do you feel your child should go swimming every year?

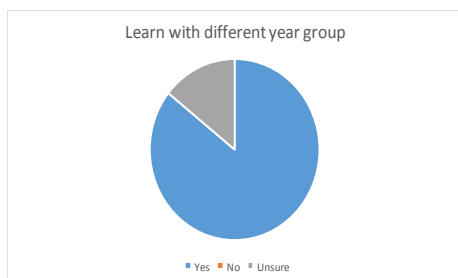

Do you feel your child requires ten sessions each year in order to consolidate skills?

Do you feel your child should only attend swimming once, then they will only continue the following year if they failed to meet the expectations that we teach to?

Would you be happy if your child did not meet the requirements to continue with an alternative year group?

38% of families responded, thank you.

We take your comments into account as we look at continuing to fund swimming in the future and the best way that the school can access this, taking into the challenges of travel and timings.

Additional Comments

Swimming is great

I feel swimming is very important

It is great that the school teaches them to swim and it is not left to the family

It is good because children need annual refreshers

We choose the school due to annual swimming lessons

Please let the swimming continue annually

The children make good progress this way

I am very grateful that they attend annual swimming lessons

Please can there be an option to wear goggles—this isn't possible as it is the regulations of the company who run the pool and instructors

Make sure children are in the correct group—the children are placed correctly, this is not always the same as they would be if with an adult on a 1:1 basis. Each child is measured annually at the start of the sessions against the swim schools criteria.
