

Governor Profile

Sarah Mahmood

Staff Governor

I am originally from Bradford and when I moved to Keighley I worked in a Medical Practice as a Receptionist. I applied for a Teaching Assistant's job at Victoria Primary School, where I worked in Nursery for 4 years before moving into year 2. I continued to work across the school, delivering interventions and parenting courses.

As from September 2019, I have been working as a Parental Engagement Worker. My role is to support parents in building their engagement and involvement in their children's learning through delivering and organising parent classes such as Family Links and DICE.

In 2015 I became the Staff Governor to represent staff, parents and the children of Victoria Primary School. I feel it is important for individuals to have a voice, therefore I chose to become a Governor to enable me to work alongside others to make a positive difference.
