

### Election Fever..

At the start of term, there has been a hive of activity in Year 6 as the children have been preparing to participate in the St Peter's election for house captains. Speeches have been written, canvassing on the playground has been undertaken, badges and banners displayed and on Friday, children from across the school took part in the voting. Results were verified and announced in assembly. We congratulate the winners and celebrate all those who took part.

### Raising funds for Macmillan Cancer Care

Well done to everyone who came and purchased cakes to raise money for Macmillan Cancer Care.

The children's cake and juice sale this morning raised over £60. The total for this afternoon's sale will go into next week's newsletter.

Thankyou Maddie, who prior to the cake sale, made and sold scrunchie hairbands to raise additional funds. Also thanks to PTA members who helped with the sale.

### Book Bus excitement!!

Excitement was palpable in school this week as the Book Bus arrived on the playground with a huge range of both fiction and non-fiction books for children, across the school, to select for their class libraries.

### Scooting on the playground

Whilst we would advocate cycling or scooting to school as great ways to stay fit, we would remind parents/carers that children must dismount before entering the playground so that our younger pupils stay safe and secure! Cycling is open to children who have undertaken their *Bikeability* training, and we do ask that cycles are parked in the storage facility off the small playground.

### Nut Free

As far as possible, we ensure that the school is nut free. Several children in school are hyper-sensitive to nuts, and just being in the same room can prompt a untoward reaction. Please ensure that packed lunches and/or snacks do not contain nuts or nut derivatives. **Thanks for your support.**

### Term Dates

Please ensure that you take note of term dates (available on the school's website), when planning holidays, as all time out of school has a detrimental impact on children's learning. Any requests for term time holidays will not be viewed favourably and may result in a penalty fine.

### Making muscles...

Children in Year 3 have been busy producing their own working hand models showing the relationship between skin, bones and muscles in facilitating movement.
