

## The Nest

This week at the Nest we have explored with our new toys. We helped one another to complete jigsaws and board games, and used our super outstanding sharing skills. This week on Woodland Wednesday we made our own hedgehogs using autumn leaves that have fallen off the trees, we had lots of fun learning about where hedgehogs live and what they like to eat. We have also learnt about the weather and made our very own weather chart for The Nest so we can watch the weather and record it each day. We got very excited about making our chocolate crispy cakes this week and we were especially good at sharing out the tasks with all our friends.

### Photos from the week:

### Reminders:

- The Nest would really appreciate any woodland materials you might find. We are especially looking out for conkers and pine cones for lots of activities we have planned. Thank you in advance.

### Dates to remember:

- Woodland Wednesday – Next week we will be making Conker caterpillars – remember to get booked on.
