

## PE and Sport

### Christian Distinctiveness

Through our PE curriculum we teach children to become muscular Christians by teaching them and encouraging them to develop a sense of fair play, honesty, following the rules/laws of the game, to work as a team and to respect their opponents as well as match officials / referee. All of which are important characteristics of our Christian distinctiveness. Through Mini Marathon, we raise money for charity by collecting sponsorship for participating in sport, another Christian characteristic. By playing fixtures against other schools, the children develop tolerance for people who come from a different place or different school.

Dance is used in worship.

During Healthy Life Style week, exercise is promoted. Collective worship during this week encourages pupils to take care of their bodies as a mark of respect and thankfulness that they have active bodies. Over the week Bible stories are used that can be linked to physical activity and sport: fishing, driving a chariot, running, the strong man etc.

<b>Intent</b> <b>What are you trying to achieve through the curriculum?</b>	<b>Implementation</b> <b>How is your curriculum being delivered?</b>	<b>Impact</b> <b>What is the difference your curriculum is making?</b>
<p>To meet the full requirements of the national Curriculum.</p> <p>To ensure the vast majority of pupils can swim a minimum of 25 meters and develop lifesaving skills.</p> <p>To ensure pupils understand the importance of health and fitness.</p> <p>To provide pupils with high quality teaching in order to inspire them to engage in sport beyond PE lessons.</p> <p>To provide pupils with a wide range of extra curricular activities.</p> <p>Provide pupils with opportunities to develop their skills and talents by competing against others pupils at other schools.</p> <p>To provide opportunities for pupils to progress their skills and talents by identifying clubs</p>	<p>Year 1 to 6 have access to a weekly PE session with a specialist coach. Manchester City in the community provide a sports coaching programme and some of our Sport Premium is used to fund this. The coach also provides CPD for teacher and TAs, in order to provide them with the skills and confidence to deliver their own quality PE session. In addition to this, teachers deliver a dance, gym or athletics session on a weekly basis. Reception also access a sports coach on a weekly basis to develop gross motor skills.</p> <p>School provide pupils with a vast range of extracurricular activities, during breakfast club, lunch time and after school, such as, netball, football, cricket, tennis, gymnastics and dance.</p> <p>Year 4 pupils attend a weekly swimming lesson for a whole year. We feel it is important that they attend for the year so they develop confidence as they begin</p>	<p>Pupils are making good progress and developing key skills. This is evident in school assessment data, pupil performance during sports day, and pupil performance in school competitions. For example, when competing in the Dance festival at Rochdale Town Hall, pupils achieved highly commended which demonstrates high standards.</p> <p>Pupils represent the school in a wide range of sporting events such as, football, dance, netball, cricket, and chess. The school has been successful in sporting events, winning football matches, netball and cricket matches, again which demonstrates our high standards.</p> <p>Pupils achieve well in swimming lessons and the vast majority of pupils can swim 25 meters, (90%). Only those with learning difficulties/ motor coordination difficulties have not achieved the standard.</p>

<p>and other agencies outside of school.</p> <p>To provide pupils with other sporting opportunities that they may not otherwise be able to access.</p> <p>To attend sporting events that may inspire them to have high sporting aspirations.</p>	<p>to develop physically throughout the year.</p> <p>Through the daily mile, pupils are aware of the importance of exercise and fitness as part of their healthy lifestyle.</p> <p>School provides pupils with opportunities to compete against each other in inter-competitions, as well as competing against others schools too.</p> <p>Pupils access extra-curricular activities such as rock climbing. Last year, a vulnerable group of pupils were selected to take part in a climbing club and this was sponsored by a charity who works with schools to support disadvantaged pupils.</p> <p>School provides pupils with opportunities to access different sports such as orienteering in Lyme Park. Windsurfing, kayaking, canoeing, sailing, rafting, and swimming at Debdale park. And we also provide opportunities for pupils to access over night residential trips at Linnit Clough, where children get the opportunity to go hill hiking, orienteering, climbing, low ropes, and canoeing.</p> <p>School provides opportunities for pupils to attend professional events and we are situated well to attend a number of them, for example, we often get free tickets from Manchester City football club and last year we attended the cycling world championships at the velodrome.</p>	<p>We are tracking pupil obesity through the CHAMP project. At the moment 15% of our children are described as obese and 15% are described as overweight. We are working to reduce this. Visitors have commented on how athletic, fit and healthy our pupils are compared to others schools they have worked with.</p> <p>In 2017-18, the school achieved the Silver Sports Mark award and 2018-2019 the Gold Sports Mark which recognises our commitment to providing our pupils with sporting opportunities and competitions.</p> <p>As a result of working joining the climbing club, one of our pupils was selected and sponsored to join the climbing academy. This was due to the natural talent the pupil had demonstrated.</p> <p>Children enjoy their experiences, and these experiences are important because some of our pupils may never have the opportunity to take part in some of these activities if they did to do them with us. It also provides an opportunity for pupils to discover their talent, for example, last year at Debdale, one of our pupils was invited to attend sailing club due to the natural talent he displayed.</p> <p>Providing the opportunity for pupils to see elite athletes in action can inspire the pupils to take up the sport. For example, since we attended the cycling world championships with a group of pupils, one of our pupils attended the cycling club</p>
