

Subject Overview - PSHE

VISION

Our children will receive high quality PSHE teaching, which will engage and inspire them to develop their sense of self and the world around them. Through constant and consistent teaching of the key areas, children will develop a confidence to be able to discuss difficult subjects and make informed choices on their own health, well-being and relationships. All children will understand the ground rules as these are referred to regularly. This is to ensure all children feel they are in a safe environment to talk and/or listen to relevant day to day issues.

COVERAGE – At a glance

To be used in conjunction with year group medium term plans

Yr Group	Autumn 1	Autumn 2	Spring 1	Spring 2	Summer 1	Summer 2
N	Throughout the year all topics include PSHE elements through the EYFS curriculum with prime focus on Personal Social and Emotional, Understand the World and Physical Development (Health and Self care).
