

## **Parental Involvement**

We welcome all parents to be involved within the Pre School. A notice board is displayed and parents are updated on any new issues that arise. This is achieved through the notice board, website, facebook or verbally.

Feedback sheets and questionnaires are issued to parents on an annual basis, this helps the Pre School continue to improve and maintain a good standard of childcare. This also helps provide a good parent partner relationship.

Parents are given the opportunity to talk to staff to discuss any concerns or issues they may have on a daily basis.

The Pre School staff will be available 3 times a year for parent consultations via appointment. If you need to speak to your key worker at any other time please speak to the manager to arrange an appointment.

Children who are not brought in regularly by their main carer will be given a communication book to communicate between home, the Pre School and other settings/child minder.
