

English

This term we will be learning how to write labels, captions and lists, we will then have a go at making our own potions! We will also be studying the traditional tale – The Magic Porridge Pot, and will be revisiting poetry. Elfy the Christmas Elf will be visiting us later in the term and we write letters to Santa.

SPAG

We will be revising using commas to separate items in a list. We will then move onto compound words and will look at identifying and writing questions and commands.

ICT

We intend to spend some time this term making some stop motion videos. We will learn how to use digital photos, presentations and animations. We will continue to use Purple Mash for coding.

Art and Design

This term we will explore printing and painting landscapes. We are going to develop our ability to plan and design our creations including remodelling and adapting our designs to create better models.

History

As part of our topic we intend to look at historical figures of importance e.g. Winston Churchill as well as study some famous artists.

Geography

Compass directions and how we can use these to find our way. Revising continents and oceans.

Other

Christmas arts will take place closer to the holiday season. Parents will be invited to attend this event.

Mud painting is something we will explore within our learning this term and will be requesting old clothing in the near future.

PSHE

We will be learning about safety around medicines and other household products.

Year 2

Muck, Mess and Mixtures!

Maths

We will continue to cover place value and multiplication, focusing on 2s, 5s, 10s and 3s. We move onto division later in the term.

We will also revisit money and begin to add and subtract from £1. We will be looking at giving change and finding different ways to find an amount.

Music

School concerts in preparation will enable us to explore body percussion, keeping beat and developing our repertoire of songs in the festive season.

Religious Education

Throughout the festive season we will be learning about gifts and giving.

Science

As part of this topic we will explore materials and begin to understand how their properties effect their uses. We will be looking at natural and manmade materials as well as exploring their properties.

The children will be carrying out experiments to look for reversible and irreversible changes.
