

Mission Statement

At All Souls' CE education is about learners and how they can best experience the joy of discovery, solving problems, being creative in writing and the arts, developing their self-confidence as learners, embracing our Christian ethos and maturing socially and emotionally. All Souls' will combine exacting high standards with a broad, balanced and rich curriculum. Education will be the fusion of excellence and fun. Learners do better when they are excited and engaged, when there is joy in what they are doing, they learn to love learning.

Literacy, numeracy and ICT will be the backbone of our pupils' success in learning. We will build on our strengths to serve the needs of our children using the skills of everyone in the school. This school will drive its own improvement, set its own challenging targets and recognise that for the sake of our learners we can always do better.

Learning will be focused on individual pupils' needs and abilities and we will develop assessment for learning, which enables knowledge about individuals to inform the way they are taught and learn.

Teachers and classroom assistants will provide a tailored approach to support learners with additional educational needs, gifted and talented learners and vulnerable/minority groups. We will give extra support to the learners that need it most whilst challenging all learners to achieve the best that they possibly can.

We will build a partnership with parents by providing quality information and by knitting the school into the fabric of their community.

We will provide activities outside school hours to extend and enrich learning and work with external agencies to provide the best possible support and care for our children.

Every leader at All Souls' CE will put into place effective systems for quality assurance self-evaluation that in school will promote exacting high standards of learning and behaviour by teaching positive behaviour to all learners.

All Souls' CE Primary School Aims

OVERALL AIM

To be a centre of excellence in terms of teaching and learning where children grow in knowledge, skills and understanding of the world around them and develop as secure, happy and tolerant members of society

SECONDARY AIMS

We aim:

1. To provide a fun and creative broad and balanced curriculum which challenges every child
2. To provide a secure learning environment which is interesting, stimulating and promotes independent learners
3. To create positive, healthy, caring citizens who appreciate their responsibilities and rights within society in order to become valued successful members of the community
4. To promote a strong sense of Christian values and respect for other faiths
5. To develop an effective partnership with parents which is based upon mutual trust, co-operation and respect
