SEND Governor

2: Legislative Compliance

2.1 This policy complies with the statutory requirement laid out in Paragraph 3.66 of the SEND Code of Practice 0 – 25 July 2014. It also meets the requirements of the Statutory Instrument: Special Educational Needs (Information) Regulations (Clause 65).

This guidance is for staff, parents/carers, children and practitioners across education, health and care agencies. It is written with reference to the following further guidance and documents:

- Part 3 of the Children and Families Act 2014 and SEND Code of Practice July 2014
- Equality Act 2010, subsequent updates and DfE advice for schools, February 2013
- Statutory Guidance on Supporting pupils at school with medical conditions, April 2014
- Ofsted Section 5 Inspection Framework, September 2015
- Teachers Standards 2012
- National Inclusion Statement
- Relevant National Curriculum frameworks/document
- Documents are kept in the School office and on the website www.westactonprimaryschool.org

2.2 Our school has separate policies in place for:

Safeguarding, Accessibility, Assessment, Anti-Bullying and Medical Needs Policies.

2.3 Our SEND Information Report sets out how we are implementing our SEND Policy and meeting our duties under the Equality Act 2010.

http://www.westactonprimaryschool.org/about-us/policies (page 2)

2.4 The Department for Education has published a Guide for Parents on the SEND Code of Practice which can be accessed at

3: Profile and Values
3.1 Our School Profile

West Acton Primary School is a mainstream school. We are a three form entry school with a fifty place nursery and an Additionally Resourced Provision (ARP) for pupils with autism and communication difficulties. Pupils are allocated to the ARP through Ealing SENs department.

We recognise that our pupils have a variety of needs and aspirations. We are committed to the inclusion of all pupils in a broad and balanced curriculum, made accessible through differentiated activities.

The needs of some children require consideration beyond that given to other pupils. These pupils are defined as having a Special Educational Need.

We recognise that many pupils will have special needs at some time during their school life. In implementing this policy, we believe pupils will be helped to overcome their difficulties. Whilst many factors contribute to the range of difficulties experienced by some children, we believe that much can be done to overcome them by parents, teachers, governors and children working together.

3.2 Our School Values relating to inclusion and pupil achievement

- We celebrate our children’s strengths, interests and individuality
- We have high expectations and aspirations for all our children
- The views, wishes and feelings of our children are central to all we do
- We work positively and proactively with parents/carers and others involved
- All our children are entitled to a broad, balanced and relevant education and to feel secure, safe and valued
- All children are encouraged to participate in the life of our school
- All our teachers are teachers of children with SEND and are responsible for their progress and development

4: Aims and Objectives of our approach to SEND

4.1 We aim to:

- put our values into practice every day
- use our best endeavours to achieve maximum inclusion and success for all our children
- encourage high levels of participation from children, parents and carers
- have a clear focus on steps toward positive life-long outcomes
- explain what we do, when, why and how
- meet our statutory duties

4.2 Our Objectives are:
• to work in partnership with families and others involved in the care of children in our school
• to promote children’s self-esteem and emotional health and well-being and help them to form and maintain meaningful relationships based on respect for themselves and others
• to sustain a “whole child, whole school” approach to the co-ordination and provision of support for special educational needs
• to ensure that every teacher is a competent teacher of every child, including those with SEND through well targeted and continuing professional development
• to deploy effective and well trained support staff
• to provide differentiated and personalised learning opportunities building on each child’s strengths and interests
• to identify needs, particularly of vulnerable and disadvantaged children, at the earliest opportunity, meet their needs, and review their progress regularly
• to make every effort to narrow and close the gap in achievement between vulnerable and disadvantaged children and their peers
• to focus on individual progress across a wide range of outcomes as the main indicator of success
• to develop and support the role of Special Educational Needs Co-ordinator (SENCO) who will work within the SEND Policy and in turn provide support and advice for all staff working with children with SEND
• to map provision across our school to ensure that staffing deployment, resource allocation and choice of intervention is leading to good learning outcomes for all
• to work in cooperative and productive partnership with the Local Authority and other outside agencies, to ensure there is a multi-professional approach to meeting the needs of all vulnerable and disadvantaged learners
• to keep up to date with the provision and services set out in the Local Authority's Local Offer to maximise mainstream universal services and funded targeted and specialist provision and services
• to work always in the best interests of the child alongside our responsibility to ensure the effective and efficient use of public resources.

5. Definitions of SEN and of Disability

5.1 SEN Definition

A child or young person has SEN if they have a learning difficulty or disability which calls for special educational provision to be made for him or her.

A child of compulsory school age or a young person has a learning difficulty or disability if he or she:

• has a significantly greater difficulty in learning than the majority of others of the same age, or
• has a disability which prevents or hinders him or her from making use of facilities of a kind generally provided for others of the same age in mainstream schools or mainstream post-16 institutions
Special educational provision is educational or training provision that is additional to or different from that made generally for others of the same age. This means provision that goes beyond the differentiated approaches and learning arrangements normally provided as part of high quality, personalised teaching.

Children may be identified as having long term and significant SEN if they are not making adequate progress despite good quality, differentiated Quality First teaching and all relevant and purposeful interventions and strategies being in place.

### 5.2 Communication and Interaction (C and I)

Children with speech, language and communication needs (SLCN) have difficulty in communicating with others. They have difficulty saying what they want to, understanding what is being said to them or they do not understand or use social rules of communication. The profile for every child with SLCN is different and their needs may change over time. They may have difficulty with one, some or all of the different aspects of speech, language or social communication at different times of their lives.

Children with Autism Spectrum Condition (ASC), including Asperger’s Syndrome and Autism, are likely to have particular difficulties with social interaction. They may also experience difficulties with language, communication and imagination, which can impact on how they relate to others.

### 5.3 Cognition and Learning (C and L)

Support for learning difficulties may be required when children learn at a slower pace than their peers, even with the right level of differentiation. Learning difficulties cover a wide range of needs, including:

- moderate learning difficulties (MLD),
- severe learning difficulties (SLD), where support may be needed in all areas of the curriculum and with mobility and communication; and
- profound and multiple learning difficulties (PMLD), where children are likely to have severe and complex learning difficulties as well as a physical disability or sensory impairment;
- Specific learning difficulties (SpLD), affect one or more specific aspects of learning. This encompasses a range of conditions such as dyslexia, dyscalculia and dyspraxia.

### 5.4 Social, emotional and mental health difficulties (SEMH)
Children and young people may experience a wide range of social and emotional difficulties which are noticeable in many ways. These may include becoming withdrawn or isolated, as well as displaying challenging, disruptive or disturbing behaviour. These behaviours may reflect underlying mental health difficulties such as anxiety or depression, self-harming, substance misuse, eating disorders or physical symptoms that are medically unexplained. Other children and young people may have disorders such as attention deficit disorder (ADD), attention deficit hyperactive disorder (ADHD) or attachment disorder (AD).

The Department for Education (DfE) has published Guidance on Mental Health and Behaviour in Schools.

5.5 Sensory and/or physical needs

Some children and young people require special educational provision because they have a disability which prevents or hinders them from making use of the educational facilities generally provided. These difficulties can be age related and may fluctuate over time.

Many children and young people with vision impairment (VI), hearing impairment (HI) or a multi-sensory impairment (MSI) will require specialist support and/or equipment to access their learning, or habilitation support. Children and young people with an MSI have a combination of vision and hearing difficulties.

Some children and young people with a physical disability (PD) require additional on-going support and equipment to access all the opportunities available to their peers.

5.6 Difficulties which may not be related to SEN

Some children in our school may be underachieving, which may be caused by a poor early experience of learning, but will not necessarily have a special educational need. It is our responsibility to spot this quickly and ensure that appropriate interventions are put in place to help these children ‘catch up’.

Difficulties related solely to difficulties in English as an additional language are not SEN. We assess all aspects of a child’s performance in different areas of learning and development to establish whether lack of progress is due to their poor understanding of English or if it arises from SEN or a disability.

The following concerns may impact on a child’s progress and attainment but are not in themselves indicators of SEN:

- Attendance and Punctuality
- Health and Welfare
- Being in receipt of Pupil Premium support
- Being a Looked After Child
- Being a child of Serviceman/woman

5.7 Disability
The definition of disability under the Equality Act 2010 is ‘...a physical or mental impairment which has a long-term and substantial adverse effect on their ability to carry out normal day-to-day activities’.

This definition provides a relatively low threshold and includes more children than may be expected: ‘long-term’ is defined as ‘a year or more’ and ‘substantial’ is defined as ‘more than minor or trivial’.

This definition includes sensory impairments such as those affecting sight or hearing, and long-term health conditions such as asthma, diabetes, epilepsy, and cancer.

Children with such conditions do not necessarily have SEN, but there is a significant overlap between disabled children and those with SEN. Where a disabled child or young person requires special educational provision they will also be covered by the SEN definition.

Further information is available on our website.

We offer a wide range of extra-curricular activities, through after-school clubs, breakfast club and residential trips that can be accessed by all children.

6: Graduated approach to identifying if a child requires SEN Support

6.1 Whole school general Identification and Assessment

All our children’s needs are identified and met as early as possible through:

- observation, assessment, target setting and monitoring arrangements (cycle of assessment, plan, do and review)
- Half termly assessments which highlight if a child is not making expected progress
- listening to and following up parental concerns
- listening to and taking into account the child’s views, wishes and feelings
- the analysis of data including baseline assessments and end of Key Stage achievement to track individual children’s progress over time
- reviewing and improving teachers’ understanding of a wide range of needs and effective strategies to meet those needs
- liaison with schools and other settings on phase and in year transfer
- exchanging information from other services across education, health, care and the voluntary sector
- involving an external agency, and the Educational Psychology Service (EPS) as a minimum, where it is considered that a special educational need may be significant and long term and may require more in-depth and frequently reviewed cycles of assess, plan, do and review.
- Pupils’ progress is assessed and discussed within Pupil Progress meetings.
- Data on progress is stored and analysed through various computer database systems including SIMs and Target Tracker. Pupils’ needs are discussed and decisions are taken as to which intervention is needed.

6.2 General provision for all children using core school funding
All children will have access to well-differentiated, Quality First teaching enhanced, where appropriate, through low level, short term interventions. Children who are underachieving will have been identified as needing to make accelerated progress but will not necessarily be children with SEND.

The whole school provision map enables us to:

- plan strategically to meet children’s identified needs and track their provision;
- audit how well provision matches need;
- recognise gaps in provision;
- highlight repetitive or ineffective use of resources;
- cost provision effectively;
- demonstrate accountability for financial efficiency;
- demonstrate to all staff how support is deployed;
- inform parents, the Local Authority, external agencies and Ofsted about resource deployment;
- focus attention on whole-school issues of learning and teaching as well as individual needs, providing an important tool for self-evaluation.

6.3 Examples of Curriculum Access and Provision

Where children are underachieving and/or identified as having high incidence (low need) special educational needs, our school meets these additional needs in a variety of ways.

We use a combination of approaches to address targets identified for individual children.

- teachers differentiate learning activities as part of Quality First teaching
- preparation for new learning experiences and vocabulary development
- low level, short term, evidence based intervention programmes
- targeted additional adult group and, where appropriate, individual support
- bilingual support/access to materials in translation
- differentiation of curriculum resources
- homework club
- **SMART** target setting (specific, measurable, achievable, realistic, time based)
- booster intervention groups
- emotional care, friendship and support groups
- co-ordination and handwriting support groups
- support to participate in the life of the school
- 1:1 support
- Small group work
- Mentoring support
- Equal access to all after-school clubs, breakfast club, trips and residential trips
6.4 Monitoring and Evaluation of progress

The monitoring and evaluation of pupil progress is carried out in a variety of ways including:

- ongoing assessment of progress against targets and expected outcomes
- work sampling, moderation and scrutiny
- scrutiny of planning including level of differentiation and use of classroom resources
- informal feedback from all staff
- staff, child and parental questionnaires and conversations
- Pupil Progress Meetings every term
- pupil progress tracking using assessment data (whole-school processes)
- attendance records and liaison with Education Welfare Officer (EWO) where appropriate
- regular meetings about children’s progress between teachers and Assistant Head Teachers
- Head teacher’s report to parents and governors

6.5 Additional SEN Support provision, monitoring and review using school’s delegated additional needs funding

Every school has a whole school annual budget made up of core funding per child on roll at a point in time and additional SEN funding which is calculated based upon a formula agreed by schools locally. In line with national school funding, for pupils in the mainstream our school will deploy up to £6,000 per child per year to contribute to meeting additional needs above the usual teaching and learning entitlement. These pupils are identified as SEN Support pupils.

In addition to the identification, assessment, provision and monitoring for all children, our approach to SEN Support is as follows:

- the class teacher, sometimes with the SENCO, will discuss with parents if we feel that their child requires SEN Support;
- additional SEN support will be in place when a child’s needs require intervention which is “additional to” or “different from” the well-differentiated curriculum offer.
- we will agree targets towards longer term outcomes that are reviewed termly with parents and their child as appropriate (Learning Support Plan);
- children will have targets they can understand;
- our Learning Support Plans are a planning, teaching and reviewing tool which enables us to focus on particular areas of development for children with special educational needs. They are seen as working document which can be constantly refined and amended;
- we will use the latest LA’s guidance on SEN Descriptors;
- targets will address the underlying reasons why a child is having difficulty with learning;
our Learning Support Plans will be accessible to all those involved in their implementation – children should have an understanding and ‘ownership’ of their LSP;

our Learning Support Plans will state what the child can do, what the child has difficulties doing and how they will be supported to move forward with learning and wider outcomes;

our Learning Support Plans will have a maximum of four SMART targets;

targets for a Learning Support Plan will be arrived at through:
  ▪ discussion, wherever possible, with parents/carers, teachers, support staff and the child
  ▪ discussion with other practitioners as appropriate
  ▪ classroom observations by the school’s Special Educational Needs Co-ordinator (SENCO) and other senior leaders;

our Learning Support Plans will be time-limited – at termly review, there will be an agreed “where to next?”;

our Learning Support Plans will be based on informed assessment and will include the input of appropriate outside agencies particularly where concerns are significant and may require consideration of a statutory assessment if expected progress is not made over time.

Behaviour plans are reviewed at least termly by the SENCO and Deputy Head for Inclusion.

Where the child’s class teacher, SENCO and parent agree that the child has made good progress, it may be appropriate for needs to be met through effective class based strategies, resources and whole school interventions and assessment. In this instance, the child would no longer be recorded as being in receipt of SEN Support

7: Request for statutory education, health and care assessment

For some children with SEN, despite the school, family and other agencies working together to put in place all relevant and purposeful interventions and support, expected progress is not made. In these circumstances, external agencies, particularly an Educational Psychologist, will already have been involved in discussing, assessing the child and/or contributing to their provision.

When specialist equipment or a high level of staffing support is required to support a child with SEN, our school will fund this as part of additional SEN support up to £6,000 per year for each individual child. Children with no SEN but with a disability under the Equality Act definition may need equipment provided as a reasonable adjustment as long as this is not cost prohibitive. Specialist equipment and expertise in relation to its use will be purchased/hired/commissioned by the school from the open market, subject to the usual guarantees, service level agreements and quality assurance criteria. Our school will, wherever possible, join with other schools in joint purchasing/hire of equipment.

For some children additional provision and support will need to be deployed for the longer term in order to meet their needs and planned outcomes effectively. A multi-agency meeting will discuss if it is appropriate to submit a request to the Local Authority to consider
whether a statutory assessment of education, health and care needs is necessary. Advice will be sought from the LA’s SEN Team before a request is submitted.

8: Education Health and Care Plan

If the London Borough of Ealing considers that a pupil needs additional support beyond that which can be provided by the school, they will issue an Education, Health Care plan (EHCP). A pupil with an EHC plan receives additional funding from Ealing to allow the school to provide the pupil with additional support for the specific needs identified. The level of funding is decided by Ealing according to the individual needs of a child.

A pupil with an EHC plan will have:
- Yearly objectives identified from the areas of need outlined in the EHC plan. These are set with the parent and child (if appropriate.)
- Termly targets which are aligned to work towards the yearly objectives. These are discussed at the termly review meeting
- Ongoing provision map recording the support the child is receiving/has received that is additional and different to the curriculum plan, and outcomes for each area of support
- An annual review meeting to evaluate progress towards the annual targets and to plan collaboratively with parents and professionals for the following year

Ealing Local Offer
About the Local Offer
The name ‘Local Offer’ is used to describe all the services and provision available to children, young people and families ‘locally’ who are living with Special Educational Needs and Disability (SEND).

The Local Offer website is a resource to help parents/carers and professionals understand what is available and how to access services and support.

Ealing’s Local Offer includes:
- Early years and childcare
- Links to SEND provision within all schools
- Education, Health & Care (EHC) Assessment & Plan information
- Health and wellbeing
- Specific conditions
- Short breaks
- Money and benefits
- Housing adaptations
- Travel assistance
- Preparing for Adulthood (inc. housing, employment, support)
- SEN Support for Education

Follow the link Ealing SEND Local Offer
9: Management of SEND within our school

9.1 General

The Head teacher and the Governing Body have delegated the responsibility for the ongoing implementation of this SEND Policy to our Special Educational Needs Coordinator (SENCO). The SENCO is responsible for reporting regularly to the Head teacher and the Governor with responsibility for SEND on the ongoing effectiveness of this policy. The Designated Teacher for Looked After Children Mrs C.Ives Deputy Head for Inclusion has strategic responsibility for the inclusion of children who are adopted or in local authority care and will work in close partnership with the SENCO where a child may also have SEN.

All staff in school have a responsibility for maximising the achievement and opportunity of vulnerable and disadvantaged learners.

New staff receive induction, an induction pack and are signposted to our school website. Staff are made fully aware of the SEND and Safeguarding Policies and are given comprehensive information about the children in their care with SEND.

9.2 Head teacher
The Head teacher is responsible for monitoring and evaluating the progress of all children and for making strategic decisions which will maximise their opportunity to learn.

9.3 Special Educational Needs Coordinator (SENCO)

The SENCO plays an important role in the school’s SEN provision. This involves working with the Headteacher, Deputy Headteacher and Governing Body to determine the strategic development of the policy.

Other responsibilities include:
- Overseeing the day to day operation of this policy
- Co-ordinating the provision for pupils with SEN
- Liaising with and giving advice to fellow teachers
- Managing learning support assistants
- Overseeing pupil records
- Liaising with parents
- Making a contribution towards inset
- Liaising with external agencies, LEA support services, health and social services and voluntary bodies
- follow Local Authority guidance and procedures when it is considered that a child with significant and long term SEN may require significant support through statutory processes
- attend SENCO network meetings and training as appropriate
- liaise with the school’s SEN Governor, keeping him/her informed of current issues regarding provision for children with SEN

9.4 Classroom and subject teachers

Teachers are responsible for the four stages (assess, plan, do, review) of action with the support and guidance of the SENCO and specialist staff.

Our teachers will:
- provide high quality teaching for all pupils in their class
- Be aware of the procedures for the identification and assessment of, and subsequent provision for SEN pupils
- Collaborate with the SENCO to decide the action required to assist the pupil to progress
- Work with the SENCO to collect all information on the pupil
- In collaboration with the SENCO, develop targets for SEN pupils
- Work with SEN pupils on a daily basis to deliver the individual programmes required
- Developing constructive relationships with parents

9.5 Learning Support/Teaching Assistants
• Learning Support Assistants (LSAs) and Teaching Assistants (TAs) are part of our whole school approach to SEN working in partnership with the classroom/subject teacher and the SENCO.
• LSAs/ TAs supporting pupils with SEN work in close liaison with the class teacher using differentiated planning to support pupil outcomes and targets. Communication between the class teacher and LSA/TA is vital in ensuring pupil needs are met and next steps are planned for successfully.

10: Partnership with Parents/Carers

Our school aims to work in partnership with parents and carers. We do so by:
• working effectively with all other agencies supporting children and their parents;
• giving parents and carers opportunities to play an active and valued role in their child’s education;
• making parents and carers feel welcome;
• encouraging parents and carers to inform school of any difficulties they feel their child may be having or other needs their child may have which need addressing;
• instilling confidence that the school will listen and act appropriately;
• focussing on the child’s strengths as well as areas of need
• allowing parents and carers opportunities to discuss ways in which they and the school can help their child;
• agreeing targets for all children, in particular, those not making expected progress and, for some children identified as having SEN, involving parents in the drawing-up and monitoring progress against these targets;
• keeping parents and carers informed and giving support during assessment and any related decision-making process;
• making parents and carers aware of sources of information, advice and support; directing parents to the information on the school’s own as well as Ealing’s website:
  • [http://www.westactonprimaryschool.org/parents/services-with-ealing](http://www.westactonprimaryschool.org/parents/services-with-ealing)
• providing all information in an accessible way for parents with English as an Additional Language;
• producing a SEND Information Report that is published on the school website;
• publishing information about the Pupil Premium (expenditure & impact) on the school website.

11: Involvement of Children

Children have the right to be involved in making decisions and exercising choice. In most lessons, all children are involved in monitoring and reviewing their individual progress through the use of layered targets. We endeavour to involve all children fully by encouraging them to:

• share their views about their education and learning;
• identify their own needs and learn about learning;
• share in individual target setting across the curriculum so that they know what their targets are and why they have them;
• self-review their progress and set new targets;
• monitor their success at achieving the targets on their Learning Support Plan;
• and
• create a pen portrait or One Page Profile of their likes, dislikes, family, friends, strengths, needs and aspirations for their future.

12: Supporting pupils at school with medical conditions

Some children in our school have medical conditions that require care and support to enable full access to education, including school trips and physical education. Some children with medical conditions may be disabled and where this is the case the school will comply with its duties under the Equality Act 2010.

Some may also have special educational needs (SEN) and may have a Statement, or EHCP which brings together health and social care needs, as well as their special educational provision.

Pupils with allergies, food allergies have warning photos in the staffroom and Medical room.

Pupils with medical conditions are supported in all areas of the curriculum to give equal access to all.

Risk handling plans are in place for children with medical conditions.

13: Effective Transition

For all children, we will ensure early and timely planning for transfer into our school, within our school year groups and onto the next phase of education and invite relevant professionals to meetings.

• During the year in which children are due to change school, transition meetings and class transition days for all children are held and arrangements discussed. For children with SEN this may include additional familiarisation visits, buddy bonding activities, parental/carer visits to our school or other reasonable adjustments in addition to normal arrangements for all children.
• When children are due to leave our school, they and their parents will be encouraged to consider all options for the next phase of education. We will involve outside agencies, as appropriate, to ensure information is impartial, comprehensive but easily accessible and understandable. Accompanied visits to other providers may be arranged as appropriate.
• We will discuss transition needs of all children with Statements of SEN or an Education Health and Care Plans at their statutory Annual Reviews.
• A transition timeline will be produced and shared with the family.
• For children with an Education Health & Care Plan in transition years, the SENCO will also attend any Annual Reviews for the children at their feeder school if invited.
• Liaison with Secondary schools takes place and relevant staff from the next school are invited to meetings and reviews in order to ensure a smooth transition.

14: Admission Arrangements

No child will be refused admission to school on the basis of his or her special educational need, ethnicity or language need. In line with the Equalities Act 2010, we will not discriminate against disabled children and we will take all reasonable steps to provide effective educational provision (see Admission policy for the school).

15: Exam Access arrangements

Equal access is made using DFE guidance for KS1 and KS2 pupils and the protocols and access arrangements are followed.

16: Storage of records

Children’s records are sent to the next school as soon as possible after a child has transferred. Whilst the pupils are attending West Acton Primary School the records are kept in a locked filing cabinet. (The confidentiality policy is updated annually and signed by all staff and Governors annually).

17: Complaints

If there are any complaints relating to the provision for children with SEND these will be dealt with in the first instance by the class teacher, SENCO and Deputy Head for Inclusion, then, if unresolved, by the Head teacher. In the case of an unresolved complaint the issue should follow the Complaints procedure (see separate School’s Complaints Procedure).
