

1, Write some number calculations using Roman numerals, for your friends to solve.

2, Create a Celtic costume. Tartan pyjama bottoms and blankets may come in handy. You could borrow a brooch to secure your cloak or some Celt-inspired jewellery.

3, Find out if there are any Roman forts or settlements near where you live. Try to visit one with your family. Take lots of photographs of what you see.

4, Look at Roman artefacts in detail at a local museum or on the British Museum website. Create a PowerPoint presentation, showing the artefacts that most interest you, and provide information about what they were used for.

5, Make a drawing of a Roman god or goddess. Write a fact file of information.

6, Create a word search or crossword puzzle containing some of the key Roman vocabulary you have learnt. Bring your puzzle to school for your friends to solve.

7, Make a model of Roman shield or a Roman villa using junk materials such as cereal boxes, coloured paper, tin foil and cardboard tubes. Use online images and pictures in non-fiction books to inspire the layout of your villa.

8, Look at holiday brochures and online information to find out about modern day Rome as a tourist destination. Which tourist attractions would you like to visit? What is the weather like? Where else would you like to go in Italy?

These are few suggestions. Pick the ones that interests you. You can add your own ideas. Be creative!
