

Science

WALT: investigate forces

In preparation for science next week, we would like you to find out about different forces and how they affect the movement of objects.

You can draw labelled diagrams to show your understanding.

My Learning Log

Reading, Spelling and Times Tables

WALT: read our AR book for meaning and practise our spellings/times tables

We expect the children to be reading daily for 15 minutes (minimum) to help them towards their targets and develop their understanding of texts. In addition, they should be practising their tables (on Rock Stars) and spellings (Spelling Shed). We will be awarding DJ's for all those children who are engaging with these interactive programmes to support them with their learning.
