JANUARY 2020

St Joseph's Breakfast & After School Club

01282 813045

Whilst it seems like such a long time has passed since Christmas, our After School Club members are still talking about the fun we had, especially at our end of year party, making decorations and gifts, baking, decorating biscuits, pulling crackers and playing with balloons! We also enjoyed our second film night last term and over 40 children turned up in their Christmas jumpers and pyjamas to watch The Grinch! We entered a few Christmas Card competitions with some of our children winning book tokens or prize money which has been so rewarding after all their effort and creativity!

As the evenings get much lighter we are finding much more time for outdoor play and adventures, we are also finding ways to do homework and read lots of different types of books at Breakfast & After School Club, using technology and working alongside friends..

Wonderous Winter....

"MAKE IT" MONDAY

Along with lots of festive crafts last term, already this January we have been designing special bags for library books, making watercolour calendars, experimenting with weaving and sewing!

"TECH" TUESDAY

We have been used a special lightbox to trace photographs and pieces of art, looked at robotics and regularly spend time in the ICT suite.

"OUR WONDERFUL WORLD" WEDNESDAY

We have been building dens indoors and used torches in the dark to make shadows on the walls, baked delicious brownies and made a pretend fire to tell stories by...

"THOUGHTFUL" THURSDAY

We have used our thinking skills to solve puzzles, play games and challenge ourselves both mentally and physically. We have used role play to investigate the jobs of doctors and nurses!

"FEEL GOOD" FRIDAY

Football in the hall, giant ballons and beach balls, beading, air hockey, the Wii, music and giant paintings with our hands...just some of the things that make us feel great on a Friday!
