Coronavirus (COVID-19) Preparedness – updated 17 March

Dear parents and carers

Advice from the government regarding coronavirus changed significantly yesterday evening.

Although the majority of children at school remain healthy, it seems wise to provide work in case your child is off sick (or has to self-isolate) and to prepare for a possible future school closure. Therefore, I have asked teachers to equip children with learn-at-home packs, which they can keep at home in case they are needed.

Today your child should bring home with them:

- two reading books
- a new, clean yellow exercise book for their work while at home
- a list of tasks that they can work on (see attached sheet which will also be emailed to parents)

The 'How to keep learning at home' sheets contain a mixture of written and online tasks. Some of these the children can complete independently but many of them will require you to support them.

Can I take this opportunity to remind you not to send your child to school if they have a new, continuous cough or a high temperature.

I will continue to review the situation daily to ensure that the children and staff are safe and that education continues as well as it can.

Yours sincerely,

Mr Hunt

Additional Key Stage 2 online resources:

If your child completes the work that is set by the teacher, you can find more learning activities at these sites.

- Classroom Secrets for Kids: [classroomsecrets.co.uk](https://www.classroomsecrets.co.uk)
- Twinkl: www.twinkl.co.uk

The publishers of these online resources have made their activities free to children and families during this time.
