Task 5

Watch the following clip below which is all about the different layers of the rainforest. Look closely at the different types of plants, trees and shaped leaves in different layers of the rainforest.

Use the link below or see the YouTube clip below this document on the website

https://youtu.be/ULbplCn8-zs

If you can, go and explore in your garden and find some different shaped and/or coloured leaves. Study them carefully. Why do you think they are that shape and size? Can you paint the leaves and print them on paper to make your own rainforest inspired piece of art? Alternatively, why not place a piece of paper over the leaf and gently rub a crayon over the top – can you see the print/markings?
