15 May 2020

Dear Parents and Pupils,

When I wrote last week we were waiting tentatively to hear about the next steps for the nation. As lockdown restrictions have eased this week, I do hope you have all made the most of unlimited daily exercise and taken advantage of access to more facilities. With regards to responding to the announcement of a school opening from June 1st, the Federation is currently responding to the guidance presented by the government and we are making preparations towards a possible, partial opening of the school as the government has requested. Safety is paramount and this will be at the forefront of the planning stage. We will be in contact over the coming days to communicate next steps. In the meantime, teachers are working hard to ensure you have everything you need to home school your children. Please do continue to ask for support, advice or reassurance if and when you require it.

Best wishes,  
Claire Lamb

## What's going on?

An Italian architect is planning a city of skyscrapers! Luca Curci said that he wanted to build four self-sufficient, interconnected towers with trees, wildlife and farms.

He claimed that his buildings, for 200,000 people, would be the best way to tackle population growth, pollution and poverty. He says his project, The Link, could save the world and halt urban sprawl. He says, "We need a sustainable vision, my towers are designed to encourage a sense of community."

### ***Things to talk about at home...***

Talk about where you live, what do you like about it? Is there anything you would change?

Would you like to live in architect, Luca Curci's, city? What are the positives about the project?

What would your dream house look like? What features would it have?
